

Modular cell walls

For agriculture and industry

Presentation - advantages :

- Cost-efficient modular system
- Galvanized screwed sheets
- The interior smooth wall with sheet thickness 2mm is easy to clean
- Funnel outlet angles are available in 40° and 60 versions for easy emptying
- Slider included
- Ventilation system if necessary

Modular cell walls

Example of cells combination:

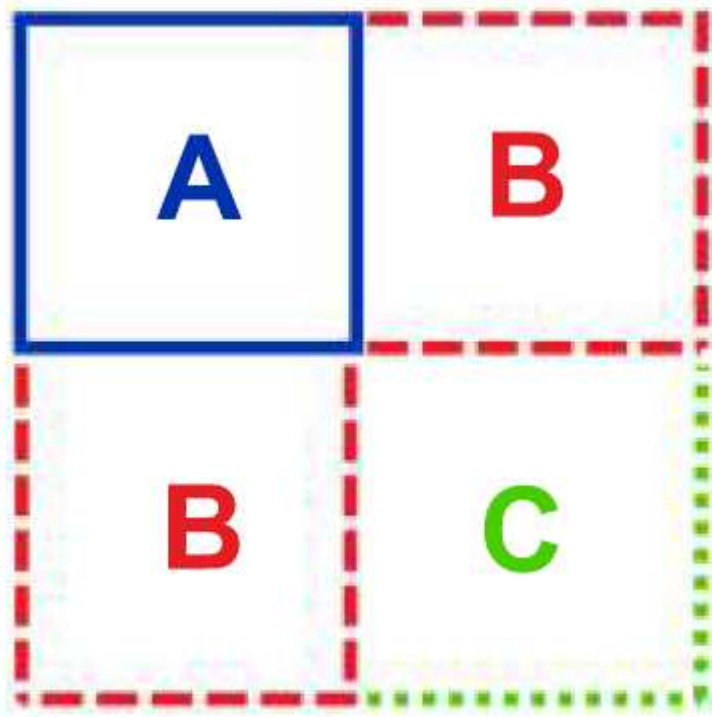

- Different height of funnels are available
- Height of outlet according to customer requirements
- The 60° funnel allows easy emptying of floury materials.

Cells combination :

- Only one cell or several cells assembled together for cost reduction and space saving (see figure).

Advantage: one wall can be used for several cells.

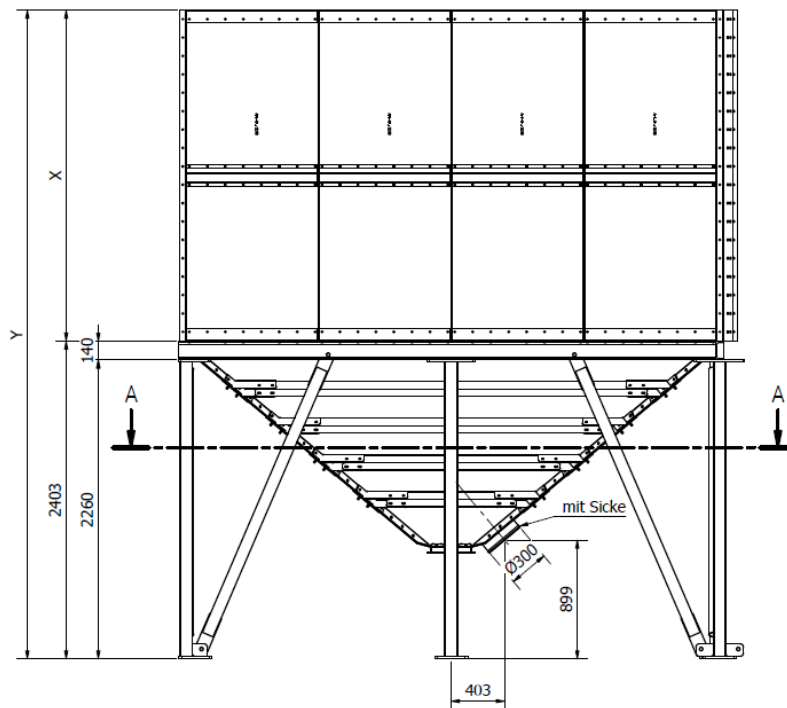

- A ventilation system combined with hopper made of pyramid-shaped sheet metal will spread air in the cell.

- Minimum maintenance is required.

Drawing :

Example for modular cell with hopper 4m x 4m

Options :

- Conveyor belt floor with pneumatic residual discharge available
- Square silo cover
- Ventilation system
- Fans
- Different outlet slides for emptying
